APAC "Proposed 2010 County Redistricting Map" Submittal Narrative

Complete narrative included in "communications received" and will be posted on webpage

"Empowers Asian and Pacific Islander community in San Diego"

Note: The original APAC plan data file, when imported, did not generate a map looking like the map that APAC had also submitted. So staff worked with APAC's Vince Vasquez to determine APAC's actual desired tract and block assignments, now reflected in the APAC Draft Plan presented today.

APAC "Proposed 2010 County Redistricting Map" Submittal Narrative

"Empowers Asian and Pacific Islander (API) community in San Diego" as follows:

‣ Raises highest API % to 21.6% (Dist 3)

‣ Unifies Mira Mesa

‣ Proposed District 3 includes all of proposed City of San Diego District 9

‣ Proposed District 3 comprised of 6 of 10 San Diego neighborhoods with highest Asian residents and 5 of 10 largest Asian community planning areas, and covers 36% of San Diego's API population
